## HOW TO MAKE A MACRAME FEATHER

### Materials needed:

- Approximately 18 feet of 5mm Aster & Vine recycled cotton rope
- Medium wood ring (or something else to hang your feather off)
- Scissors
- Optional: Macrame brush, fabric stiffener

*Knots used: Lark's Head knot, Square knot*

*Level: Beginner*

- Cut 1 piece of rope, 2 feet long
- Cut 22 pieces of rope, 8" long

- Attached your 2' long rope to the wooden ring using a Lark's Head knot
- The remainder of your rope will be attached to the length of this first rope using a square knot. (See photos below)

- Attach the remainder of your cords as outlined above.
- Once complete you will need to brush out the rope of your feather, I recommend untwisting the 3-strand rope before brushing.
- After you have completed brushing your rope, trim it to the desired shape.
- *Optional:* Fabric stiffener can be used on the feather to help it keep its shape. There are a variety available for purchase online or you can search for DIY options.
